

LET'S TAKE BACK OUR COUNTRY

"Our increasing support this election is being met with political panic, blatant scaremongering, and worse - attempts to deny people from having a voice.

And they are even threatening another election if things don't go their way.

Be assured - there will be no second, another, or early election after October 14. We will make sure of that. The other parties must give you this assurance as well.

This election is about you.

It is not about the politicians, and it is not about the media.

You, the voter, are the master here. Vote, and don't let them forget it.

New Zealand First will bring experience, balance, and common sense back to government."

Rt Hon Winston Peters
Leader - New Zealand First
