

3 healthy reasons to party vote New Zealand First

1

Repeal of the Therapeutic Products Act

New Zealand First supports the right of all New Zealanders to have continued access to natural health products without the unnecessary bureaucratic interference of government.

New Zealand First stood up for the natural health products industry in 2007 and in 2017-2020 by stopping similar legislation, and will repeal this Act.

2

An independent inquiry into the Covid Pandemic

New Zealand First will ensure there is a full scale, wide ranging, independent, one year inquiry conducted publicly with local and international experts, into how the Covid pandemic was handled in New Zealand.

This new inquiry will cover use of multiple lockdowns, vaccine procurement and efficacy, social and economic impacts and whether the decisions made, and steps taken, were justified.

3

Conscience votes made by referenda, not Parliament.

Important decisions that change the social fabric of our country forever should not be left up to temporarily empowered politicians to decide. They should be made by the people of New Zealand by way of referenda.

New Zealand First will put an end to the use of conscience votes in parliament and return democracy to the people.
